Easy

A$H.

Now you got me thinkin'
Somethin' was missin'
I took it too far
You took the distance
Lovin' you slowly
Quickly controlled me
Now we're both floating
With ease

Up down up down up down up down we go
Up down up down we go
Up down we go
Up

You so bright shine like the sun
You got love for everyone
Sprinkle gold under your feet
I knew you when you met me
Other world you make me stare
I'm in love and you don't care
Click my heels and count to three
Me and you it's so easy
Not really so easy
I'm kiddin' so easy

Did I stutta'
Said I love you
Met your mother
She's a stunna'
Yeah I want you
So come over
So don't wonda'
Full disclosure

Did I stutta'
Said I love you
Met your mother
She's a stunna'
Yeah I want you
So come over
So don't wonda'
Full disclosure

They know me because of you
You make all my dreams come true
Told me yeah they all asleep
Then you made a bet on me
Far away you took me home
Told me I won't be alone
Look at what we came to be
Oh you and me it's so easy
Just playin' not easy
I'm sayin' so easy
Oooh ayyy
