

## Know More

A\$H.

You think you know me very well  
But boy you don't know me at all  
I know you like to kiss and tell  
Every little thing that you recall  
But that's what little people do  
And I thought you knew better  
It's time for us to face the truth  
Baby we can't be together

Know more  
No more know more  
No more  
Know more no more  
You can't fuck with me  
Know more  
No more know more  
No more  
Know more no more  
You can't fuck with me no

And I got my money right  
And I got my honey tight  
And I got my bread up  
Niggas gon be fed up  
You should've loved me when you could  
But now you know what's really good  
I love by now you'd get the clue  
Catch the cue  
I don't want to be with you

Know more  
No more know more  
No more  
Know more no more  
You can't fuck with me  
Know more  
No more know more  
No more  
Know more no more  
You can't fuck with me no
