

Only

A\$H.

Baby you're the one and only  
Baby you be on my mind  
You know you don't have to be lonely  
You can come and take my time  
Baby I've been waiting for you  
I don't mean to move too fast  
I don't wanna be your homie  
I just wanna be your last nigga

Baby you're the one and only  
I don't even see these hoes  
But they be in my instastory  
Cuz they just wanna see me pose  
But what if I could make you want me  
What if I could make you care  
Would you be my one and only?  
You know these niggas don't compare

This is paradise  
Baby this is heaven sent  
Baby you and I  
Baby it's so evident  
We should be in love  
Baby you know we should be  
We should be together  
Boy forever you and me

Because baby you're the one and only  
Baby you're the one and only  
Baby you're the one and only  
Baby you're the one and only

Baby you're the one and only  
Baby this is not a game  
You make these bitches look like phonies  
You make these niggas look like lames  
But what if I could make you want me  
What if I could make you mine  
Would you be my one and only?  
You know this shit is so divine

Baby you're the one and only  
Baby it's not even close  
You know you make me so horny  
I think I need a double dose  
But boy if I can make you want me  
What if I could make you mine?  
Would you be my one and only?  
You know this shit is so sublime

This is paradise  
Baby this is heaven sent  
Baby you and I  
Baby it's so evident  
We should be in love  
Baby you know we should be  
We should be together

Girl forever you and me

Because baby you're the one and only  
Baby you're the one and only  
Baby you're the one and only  
Baby you're the one and only  
(You're the only one)
