

U+I

A\$H.

Hey  
Where'd you go  
You know I  
Love you so  
We were cool  
Now we're cold  
You and I  
What's there to say  
We've both gone our separate ways  
All I have left is the taste of  
You and I

I can't believe that I believed you  
I'm glad I had the nerve to leave you  
I'm glad I had the nerve to walk away  
Now you want me to stay?  
Boy please

There will never be another  
You and I  
We are more than lovers  
You and I  
Much more than fiction  
You and I  
Toxic addiction  
You and I

You're not my type  
I should've known now I know better  
We weren't in it for the love  
But we loved the pleasure  
But I don't love you anymore  
Your time is up you make me bored  
But it was cool for what it was boy  
And don't you try to change my mind  
I've made it up  
And I won't let you change my mind  
Don't interrupt  
You fooled me once  
That's shame on you  
Don't try again  
Cause that shame is on you too

I can't believe that I believed you  
I'm glad I had the nerve to leave you  
I'm glad I had the nerve to walk away  
Now you want me to stay?  
Boy please

There will never be another  
You and I  
We are more than lovers  
You and I  
Much more than fiction  
You and I  
Toxic addiction  
You and I

Come a little closer to me  
I can give you just what you need  
If you let me love you right  
Baby let me waste your time  
You know that when we start we don't stop  
I'm goin' all the way to the top  
If you let me love you right  
Baby let me waste your time

(La la la la la la la la la la)  
I can't believe that I believed you  
I'm glad I had the nerve to leave you  
I'm glad I had the nerve to walk away  
Now you want me to stay?  
Boy please

There will never be another  
You and I  
We are more than lovers  
You and I  
Much more than fiction  
You and I  
Toxic addiction  
You and I

There will never be another  
You and I  
We are more than lovers  
You and I  
Much more than fiction  
You and I  
Toxic addiction  
You and I
