

1080P

A Killer's Confession

All shall gather around the golden screen
Kneel and pray religion 1080p
Hear my words you can trust in me
Electric shepherd human sheep

Damn did you witness all of their screams

I lost myself today
I flipped my time away
What I'd give to find my own way

Damn did you witness
The Innocent screams
Damn did you witness
I am your beliefs
Damn did you witness
Get down on your kness
Damn did you witness
Now go to your screen
Flipping through your channels as you search for your new life
Dumb downed controlled little parasite
Looking at you but you'll find in me manipulation 1080p

I lost myself again
Where I start where I begin
I'd give anything to live again

Damn did you witness
The Innocent screams
Damn did you witness
I am your beliefs
Damn did you witness
Get down on your kness
Damn did you witness
Now go to your screen

Flipping through your channels as you search for your new life
Dumb downed controlled little parasite
Looking at you but you'll find in me manipulation 1080p

Because we're damned and we're just plain sick of this
Tried to stand find yourself a witness
Dumb downed controlled easy little parasite
Lost in all your channels

All shall gather around the golden screen
Kneel and pray religion 1080p
Hear my words you can trust in me
Electric shepherd human sheep

Damn did you witness all of their screams

Manipulation 1080p

Flipping through your channels as you search for your new life
Dumb downed controlled little parasite
Looking at you but you'll find in me manipulation 1080p

Because we're damned and we're just plain sick of this
Tried to stand find yourself a witness
Dumb downed controlled easy little parasite
Lost in all your channels
