

Light To Darkness

A Killer's Confession

Since I was a boy I had the same dream
The big life for everyone to see
Then the darkness rolled in
I lost myself
And the will to live

I bring the light to the darkness
Lighting the way just to hear you scream
I bring the light to the darkness
Living the nightmare my American dream
Tell the boys with the stars in their eyes
Don't believe that myth
That fairytale lie
I bring the light to the darkness
Lighting the way just to hear you scream

Lies
Lies
Just to hear you scream
Lies
Lighting the way just to hear you scream
Lighting the way just to hear you scream
Lighting the way just to hear you scream

I was surrounded by these evil things
They are sucking my soul
And taking everything
I could see the darkness within their eyes
They whispered their words
I believe their lies
They want to take my soul from me
Here's every earthly pleasure
But now you must bleed
Like everything it must Pass
I'm here now to put you on your ass

I bring the light to the darkness
Lighting the way just to hear you scream
I bring the light to the darkness
Living the nightmare my American dream
Tell the boys with the stars in their eyes
Don't believe that myth
That fairytale lie
I bring the light to the darkness
Lighting the way just to hear you scream

Lies
Lies
Lies
Just to hear you scream
Lies
Lies
Lies
Lighting the way just to hear you scream

I bring the light to the darkness

Lighting the way just to hear you scream
I bring the light to the darkness
Living the nightmare my American dream
Tell the boys with the stars in their eyes
Don't believe that myth
That fairytale lie
I bring the light to the darkness
Lighting the way just to hear you scream

Lies
Lies
Lies
Just to hear you scream
Lies
Lies
Lies
Just to hear you scream
