

# One Step

## A Killer's Confession

One step closer

Your life is in my face  
Even though it's another mistake  
Keep lying to maintain your perfect world  
Are you fading into misery

Pulling away from the strings  
Unraveling in my dreams  
Forever in the unknown

I'm one step from taking this away from you  
Understand what motivates you  
From total annihilation

One step from taking this away from you  
One step from taking this away from you

See you fade into misery

Your site is on perfection  
But your will is never tested  
Your soft in the base  
Just to fitting your place  
Who is to judge what's black what's white  
Stand on your feet and fight

See you fade into misery

I'm one step from taking this away from you  
Understand what motivates you  
From total annihilation

Prepare for cleansing by the hands of God  
Prepare for cleansing by the hands of God  
Prepare for cleansing by the hands of God  
Prepare for cleansing by the hands of God

See you fade into misery

Your site is on perfection  
But your will is never tested  
Your soft in the base  
Just to fitting your place  
Who is to judge what's black what's white  
Stand on your feet and fight
