## A Killer's Confession

I watched the teardrops fall to the ground  
I watch you stand there, screaming with no sound

It's just another day in the life of my mind  
And I don't mind  
I won't mind if you don't care  
Dancing in the rain with all the despair

For a moment I truly exist  
Then reality hits me and I know that this is it

I have failed  
Where is my savior?  
Without a prayer  
Poisoned with anger  
To live on the edge of a knife with two sides  
To look at the world through broken eyes

Dancing in the rain while they medicate me  
Dancing in the rain

I feel the warmth from the other side  
It's the only thing that lets me know that I'm alive

One more crack and this dam will break  
Relieving the pain of past mistakes  
You will never know this feeling  
You will never know this feeling

I have failed  
Where is my savior?  
Without a prayer  
Poisoned with anger  
To live on the edge of a knife with two sides  
To look at the world through broken eyes

How many teardrops does it take until I choose to stop this?  
Choose to stop this, choose to stop this  
What will it take for you to see I can never stop this?  
Cannot stop this, cannot stop this, cannot stop this

I have failed  
Where is my savior?  
Without a prayer  
Poisoned with anger  
To live on the edge of a knife with two sides  
To look at the world through broken eyes  
Through broken eyes  
Through broken eyes  
Broken eyes

What will it take for you to see?  
You cannot stop this  
You cannot stop this

What will it take for you to see?  
What will it take for you to see?

What will it take for you to see?  
What will it take for you to see?
