

Burn the Fields

A Life Divided

They've got no mercy
They've got no sympathy at all
It's time for me to let go
I gotta get out this cemetery
Cause I'm so far away from what I believe
Don't you know all I want is to go

And I burn the fields and leave it all behind
That's not how I wanna be
There's nothing left here for me
And I burn the fields and get back into life
To the way I used to be
There's nothing left here for me

Help me to forget
And make me feel my sins again
It's been so long since I ran
I'm gonna find my freedom again
I'm gonna win it all in the end
Cause I know I'm free wherever I go

And I burn the fields and leave it all behind
That's not how I wanna be
There's nothing left here for me
And I burn the fields and get back into life
To the way I used to be
There's nothing left here for me

And I burn the fields and leave it all behind
That's not how I wanna be
There's nothing left here for me
And I burn the fields and get back into life
To the way I used to be
There's nothing left here for me
