

Confronted

A Life Divided

Take off the strip
The strip off my eyes
Show me the reason for the darkness in your mind

Give me a chance...
...to look behind
Don't leave me chasing shadows for the rest of time

[Chorus]

So please look straight into my eyes and tell me something real
Because I'm fed up with your lies about the way that you feel
You got me confronted, confronted, confronted

Don't say a word...
...I'll read in your eyes
Unlock the door and let me help you to find some light

I wished you'd open your soul...
...and give me a sight
I wished you'd break the silence and give me a reason why

"Tell me why!"

[Chorus 2]

So please look straight into my eyes and tell me something real
Because I'm fed up with your lies about the way that you feel
You got me confronted, confronted, confronted
Confronted, confronted, confronted

How do I know if I'm in your life...
...when all I get from you feels like goodbye?
And I don't want to leave
When I go, I go from here for all time

If I am in your life...
...tell me where
...tell me where
...tell me where
...tell me where
And if I am in your life...
...tell me where
...tell me where
...tell me where
...tell me where
