

Game Over

A Life Divided

You feel like you were born to die
You gotta get somebody to love
But you didn't credit me the first time
You gotta get somebody to love

You blame the world for your demise
You gotta get somebody to love
You always wanted a bit more out of life
You gotta get somebody to love

Don't you see?
I beg you to go away

If you leave it to me, it's over
Never mad 'cause the good things end
We are just a pawn inside this game
And it's over and it's over
Never mad 'cause the good things end
We are just a pawn inside this game

You're fading on the broken sky
You gotta get somebody to love
It's a story for the time that passed by
You gotta get somebody to love

Your calm inside but greedy lies
You gotta get somebody to love
You wish you ever had a chance to prove me right
You gotta get somebody to love

Don't you see?
I beg you to go away

If you leave it to me, it's over
Never mad 'cause the good things end
We are just a pawn inside this game
And it's over, it's over
Never mad 'cause the good things end
We are just a pawn inside this game

You gotta get somebody to love

.....
