

Life Goes On

A Life Divided

Breathe in - breathe out
We're up - we're down
But life goes on, my son

Life could be a killer
Life could be a thriller
Life could be the hardest of things

It lifts you to the top
And it drops you like you're hot
And breaks your crown to fix it again

Everybody's rushing
Everybody's jumping
Everyone is running the wheel

No way's ever straight
Every dead end a new fate
And nothing is as bad as it seems

Breathing out - breathing in
Let me tell you just one thing:

Breathe in - breathe out
We're up - we're down
But life goes on

What's right? What's wrong?
You're not alone
Hey, life goes on

Life could be a wonder
Life could be a thunder
Life could be the meanest of things

One day you fly high
The next day makes you cry
Joy and pain are playing their game

Everyone's competing
Everyone is cheating
Everyone's the player in town

But no matter what they say
Let 'em be - don't be afraid
Son, you'll never walk alone in the crowd

Breathing out - breathing in
Let me tell you just one thing:

Breathe in - breathe out
We're up - we're down
But life goes on

What's right? What's wrong?
You're not alone
Hey, life goes on

Life goes on
Breathe in - breathe out
We're up - we're down
But life goes on
Life goes on
But life goes on

What's right? What's wrong?
You're never alone
I'm with you, son
I'm with you, son

Hey, yeah!
