

Live Forever

A Life Divided

I feel the wind in my face tonight
I walk down the old street on a Saturday night
I am - I am
I see your picture in my mind again
Watch the cars drive by as I swim in the rain
I am - I am

Why would you wanna live forever
If you're not gonna live today
Why would you wanna live forever
If you're not gonna live today

I quit asking for the answer why
'Cause it wouldn't change a thing if I
Knew all your plans - I don't make plans
I keep moving in the shade of the light
If I get shot by you at least I know that I was alive
I am - I am

Why would you wanna live forever
If you're not gonna live today
Why would you wanna live forever
If you're not gonna live today

Why would you wanna live forever
If you're not gonna live today
Why would you wanna live forever
If you're not gonna live today
