

Rock 'n' Roll Star

A Life Divided

She's the calm in my mind
The stranger in me
She's the leader of the world, in the brightest of dreams
She lets me fly high
Puts me down on my knees
She keeps me running 'round like a mouse in a wheel

She ain't no less than a rock 'n' roll star to me

She's my health and disease
She is one in a time
She turns heaven into hell and reverse if she likes
She's the bullet in me
And the love of my life
She's the one that keeps me going to wherever she likes

She ain't no less than a rock 'n' roll star to me
She ain't no less than a rock 'n' roll star to me

Please, would you pray for me?
I'm beggin' you, please pray for me
That she'll never let go

[Chorus]

She's the queen of desire
The best part of me
She makes me fly higher than I've ever dreamed
She ain't no less than a rock 'n' roll star to me
She's my water and wine
The bleeding in me

She keeps my motor running for as long as she's pleased
She's the burning inside
Brings the best out of me
She's the only one to get me where I belong to be

She ain't no less than a rock 'n' roll star to me
She ain't no less than a rock 'n' roll star to me

Please, would you pray for me?
I'm beggin' you, please pray for me
That she'll never let go

[Chorus]

"Pray for me"
"Pray for me"

[Chorus 2]

She's the queen of desire
The best part of me
She makes me fly higher than I've ever dreamed
She ain't no less than a rock 'n' roll star to me
She ain't no less than a rock 'n' roll star to me
That she'll never let go...
"She ain't no less than a rock 'n' roll star to me"
That she'll never let go...

"She ain't no less than a rock 'n' roll star to me"
