

# Alone

## A Place to Bury Strangers

Oh  
Hear the sound  
On the tracks and on the run  
Now  
Now you're down  
Stupid shit you better run

What  
What the fuck  
Don't play with my heart  
I said what  
What the fuck  
Don't play with my heart  
Who am I

Dream  
But dream alone

Driving fast and driving thin  
Dream  
And dream you're home  
Live in fast and live in sin

You're all alone  
Now you're all alone  
Now you're all alone again  
I said you're fucked up girl  
You won't come down  
Don't take me down  
Now you're all alone again

Down  
I let you in  
Holding love and hold it in  
Feeling bad  
And looking thin  
Holding on and holding in
