

Fear

A Place to Bury Strangers

Not another second to lose
You just walk away
You see it's gone
Not another second to lose
And you hear my voice and now it's gone
Whatever happened to our love?
It seems so strange to me that your running away
And then I think of what I've and
It's not so strange to me that your running away
It's our fear
It's our fear
It's our fear
Do you think of me now?
Just you and me
What I wouldn't do or say and feel
Like I was left alone
And it's like needles to my heart
And I won't come back
Whatever happened to our love?
And it's so strange to me that your running away
And then I think of what I've done
And it's no strange to me that your running away
It's our fear
It's our fear
It's our fear
It's our fear
It's our fear
It's our fear
It's our fear
It's our fear
It's our fear
It's our fear
