

Is a, Heaven
That's worth, saving

Many man, many man, many man, many man pray for me
Yeah
Never again, never again, never again could you put a spell on
me

Yeah
I keep praying
Got the fire of God around me, I'm blazing
I keep praying to God to say
Look at what all the money, I famed it

Hate that I made it, glad that I ate it
Far from your basic, care for my time, hard to replace it
Comp and asean, rich cacasion
Rich is patience, ball like a mason, parts of the greatest
I know it's hard to face it, you follow traces
And I came up with the same crew, you lost your places

Yeah
Dark days, I know where to be seen
Yeah
God stay with a nigga long as I'm alive
Team spirit make sure there's smoke always around us
Many man believe in the boy, they praying for me
Ain't no need for one nigga to stay low key no more
Dark days, I know where to be seen
Any stage we hopping we causing a scene
Ain't no body do it like us coz we move around freely
No leash, no handkerchiefs we easy
Blowing smoke, I got the spirit of God all around me
Got them on my back I know they praying for me
Need me God's protection, so I pray all week
Blessed from head to toe the emmy stay on fleek

Many man, many man pray for me
Yeah
Never again, never again
