

big love

A-Reece

Yeah

One, two, one (One, one)

Yeah, uh

Yeah

You told me "Be patient, one day you gon' make it" (Yeah)
When I finally did, your angel had to come and take you (Damn)
Nothin' was the same, now I'm everybody's favourite
Now they know my name, now I got my own label
Woulda meant more if you were still around for sure
But I guess, I gotta just accpet
Wish you peace as you rest
No more livin' with regrets
The Lord knows I was in a mess when you left

Got me feelin' like I'm, a shadow of my former self (Yeah)
Feelin' like I, should be reachin' out for help (Yeah)
I know that you're in heaven but this grief is really puttin' me through hel
l
And I'm really hopin' nobody can tell (Yeah, for real)

So I wrote this on your birthday
Four years later and I miss you in the worst way
When I look into the mirror all I see is your face
Thinkin' 'bout you most days
I know that with God's grace you made it through the toll-
gates and now you in a calm place (Uh)
Don't know where it is, I know it's far away
Before you know it I just fell into a dark phase
Just like that I put my mental health in harm's way
Didn't know how to handle it, so I crashed
Realised that I took for granted the time I had
Even though you made mistakes, you were tryin' the best you can
But instead of understandin' I would rather wash my hands 'cause - I was in
a rush to be a man
So many questions I haven't asked
Stuck with these memories from the past
Feelin' like I don't know who I am
Feelin' like nobody understands (Yeah, right)
Until I see you again
I know you watchin' over me and want me to win (Yeah)
Lettin' go of what was, no matter what it's always one love (Yeah)

You told me "Be patient, one day you gon' make it" (Yeah)
When I finally did, your angel had to come and take you (Damn)
Nothin' was the same, now I'm everybody's favourite
Now they know my name, now I got my own label
Woulda meant more if you were still around for sure
But I guess, I gotta just accpet
Wish you peace as you rest
No more livin' with regrets
