You know I have a whole energy that represents not just black
Youth, but White youth Mexican youth
Youth!!! You know what I am saying that that uhm
That change right before you go from being 18 & unresponsible
To when you go to be like 21, 22 and; the whole world is on your shoulders,
uhm I believe strongly that uhm my
Audience empathize with me because I show that side
I show that emotion raw uncut good & bad...

A Reece
Came Up!!!

Nigga Ugh!! Came up from the west side
Then I moved out to the east side
Then I moved into the south side nigga yeah!
Back then in the north side where we trapped out in the hotels
With the same clique no new squad nigga yeah!
Back then we ain't have shit had to break bread had to pay bills
Had to take care nigga stress kills nigga yeah!
When I was down niggers would smile but I'm up now
And you don't find there's a switch up don't fuck around with me

Dark daze, long nights
We was wishing on a rainbow, had niggers claim gang on us
Same niggers ain't here though
Snake niggers with the fangs on em could be anybody be careful
These daze niggers shake hands
'Cause somebody got 'em on payroll
You don't qualify to ask me no questions
You should get your tongue cut out
Lying saying that you're my best friend
You should tell them you're grateful
You were in the presence of a young legend
Can't believe I let you hang out smoke up in all those sessions
Had to learn my lessons, young nigga I am destined
In myself I invested, counting up my blessings
Counting up racks spend it then make it all back
24/7 no resting, top 2 I'm referenced
Tangerine my preference
