

Filet Mignon

A-Reece

Yeah

2025 I'm on that 1942 (Yeah)

I'm rolling with my niggas, dawg, who the fuck are you?

Shawty, I can do that body like it's filet mignon

That should be the name of this song

Don't be embarrassed about the things we on

But don't tell your parents about the things we on (I know)

I'm working with a different aura

Let me swim in that body like we in Bora Bora

Wanna see how you ride it, baby, I won't record it

The way you moving that body, baby, I should reward it

I'm working with a different aura

Let me swim in that body like we in Bora Bora

Wanna see how you ride it, baby, I won't record it

The way you moving that body, baby, I should reward it

(Yeah)

Champagne glasses, matching status (Yeah)

(Baby girl I'ma need you around me)

Your body magic, share my assets

(Holdin' on 'cause she think I might leave)

Uh, outstanding, I'm progressing with every flow

On Hype mag and they play me on the stereo

I can put you on the scene, be my cameo

Fifty shades, I can turn this into monochrome

(Yeah)

I turn this into monochrome

Before now, girl, I really had a heart of stone

I could tell you what you wanna know

Let me travel on that body like I'm far from home

Let me travel on that body like I'm far from home

Baby girl I could tell you what you wanna know

Before now, girl, I really had a heart of stone

Shawty, I can do that body like it's filet mignon

That should be the name of this song

Don't be embarrassed about the things we on
