

## First Time 4 Everything

A-Reece

Yo, I remember the first time that I smoke some weed  
Yo, I was young though, man  
I think it was 'round about 1998  
A homie of mine had called me up and said  
"Yo, son, you wanna smoke some of this?"  
I was like, "Yeah, son, let's do it"  
Mind you, I had never smoked anything in my life before then  
Nor have I had like, any sort of alcohol for that fact  
So I didn't know what kind of high I was supposed to be on  
So I get home like, an hour later  
And the room is spinning, man  
I'm going crazy, I'm tryna figure out what's going on with me  
And that's when I realize that I was like  
You know Mary Jane had just like, caught me off guard  
So like, as I grew up with it  
You know I started learning a few things here and there  
I started learning about, you know, strains  
Different types of weed, you know  
There was a homie of mine back at art school his name was, uh,  
Nibs  
He used to hook us up with some of the dopest shit ever, man  
And like, I haven't looked back since
