

## FRIEDay The 13th

A-Reece

Catch a fire, get lifted  
I should call this weed Keith Sweat  
Because it keeps getting twisted

Inhale the smoke then I become my own best friend  
This is not a session  
This is mental enrichment  
Self-inflicted  
Downright mystic  
Disconnected and distant  
Got tired of living amongst virtual rich kids  
Pray for the world and everything in it

From a bank safe to a blockchain  
But still can't buy time with those coins that you encrypted  
For instance  
It could end in an instant  
Technology's advancing  
I doubt the human race is  
Fighting for survival like that movie Jaden Smith's in  
Fingerprint scanners  
Face recognition  
Ironically, I am just an android living  
I'm still getting paid just to write these lyrics  
After matric, you Twitter haters need to browse LinkedIn (Get a  
job, nigga)

Put your nose in my business for so long, you should inhale some eucalyptus  
The buzzed kicked in  
To whoever is listening  
This is the part on the song where I get a bit explicit  
Nigga  
Fuck shit ass bitch trick plus weed  
Only reason why they discuss me is the pressure  
And you know it just don't feel like hip hop if I don't get a little ignorant  
Revenge club records forever
