

# HIBACHI

A-Reece

Yo, my shit don't fit the same, I'm gainin' body weight  
'Cause I was on a beef diet, turnin' rappers to Hibachi steak  
Diagnosis of a pyro  
Set the hydro on fire, smoke it up as I commemorate  
The legends livin' in the sky, nigga  
Legends never die  
After reigning as the king you evaporate (Facts)  
That's a fact not a forecast, nigga  
I got the kind of drive impossible to format, nigga  
Feeling like Neo inside the loading program, nigga  
Was living like a nomad without a road map, sleeping on floor  
mats  
Remember it was six niggas inside that one flat  
And if you wasn't there you wouldn't know that, nigga  
Yeah I finally made it out when they thought it would never hap  
pen, uh  
I don't take losses, I take affirmative action, uh  
I am not a human, don't classify me a mammal  
When I, enter the booth I'm synonymous to a dragon, uh  
Lo' and behold, no need to further elaborate  
All that noise you makin' I'm here to further eradicate  
Long-awaited, stories of the unknown  
False prophets get exposed, bones get excavated, yeah (Nigga)  
False prophets get exposed, bones get excavated, uh
