

i know

A-Reece

I know

Yeah yeah

I know you want to fuck my bitch

I know you want to live in my crib

I know you want to drive my whip

I know you want to wear my kicks, my chain, this watch yeah just like this

I know you want to rap like this

I know you want the life I live

I know you want the life I live

I'm out here doing the most

But still got to move on the low

We know I'm the star the show

'Cause you niggas ain't even close you broke

You headache but now you just don't you ain't a pro you a ho

You ain't a goat you a ghost

You should have just hung up your jersey

We already ran out of hope

Thought eventually you would be dope

Got tired of showing you Mercy

I'm on 10 like the number on Percy

Matter of fact I'm the star and the coach

This shit feel like a comedy roast

You not who you was anymore

I know who you want to be though

I know you want to fuck my bitch

I know you want to live in my crib

I know you want to drive my whip

I know you want to wear my kicks, my chain, this watch you just like

I know you want rap like this

I know you want the life I live

I know you want the life I live
