

# INTENTIONS

A-Reece

Yeah  
Man, (Ooh)  
Yeah, ain't all  
(Damn Sundae)  
Yeah

You should let me know If you think we moving fast  
Just wanna let you know You the best I'll ever have  
You should let me know If you think we moving fast  
Just wanna let you know You the best I'll ever have

I know I used to be reckless  
Give me your time and your effort  
Love me and teach me a lesson  
Allow me to show my intentions  
Allow me to make you a promise  
That I'ma love you regardless  
I wish we met before college  
Shit I ain't even go to college  
Baby your beauty's a blessing  
Without you I start getting restless  
I'm tryna make an impression  
Allow me to show my intentions  
Baby your beauty's a blessing  
Without you I start getting restless  
I'm tryna make an impression  
Allow me to show my intentions

You should let me know if you think we moving fast  
Just wanna let you know you the best I'll ever have  
You should let me know if you think we moving fast  
Just wanna let you know you the best I'll ever have  
You should let me know if you think we moving fast  
Just wanna let you know you the best I'll ever have  
You should let me know if you think we moving fast  
Just wanna let you know you the best I'll ever have

I get it I used to be senseless  
I just needed direction  
Your love and affection  
Undivided attention  
Doubting you is out of the question  
I get overprotective  
I accepted correction  
I'm finding redemption  
Tryna get rid of the tension  
We got a special connection  
A lot is invested  
I'm tryna make it progressive  
Maybe I got an obsession  
You let them tell it all you hear is a lot of projection  
Close my eyes and see myself in your future endeavours  
If it was up to them it could've been over in seconds  
I'm tryna make you understand it's been that way since the days of inception  
  
This love is in our possession  
You more than a blessing

One of gods greatest inventions  
Got a goddess reflection

This love is everything that I needed  
I know heaven in your arms  
I'm tryna take my time and let it breathe  
Our journey has begun my love  
This love, it be the only thing that keeps me safe  
Now I'm far away  
From bad habits  
You're such an imperfection  
And you too complete  
Can you be mine forever  
She said time will tell  
You should let know  
If you want it on the low  
You can take control  
And you could lead the road  
Ke wena fela  
Ke wena fela  
Ke wena fela  
Ke wena fela  
Baby my intentions are pure and clear as the water is  
Allow me to show my intentions

I know I used to be reckless  
Give me your time and your effort  
Love me and teach me a lesson  
Allow me to show my intentions  
Allow me to make you a promise  
That I'ma love you regardless  
I wish we met before college  
Shit I ain't even go to college  
Baby your beauty's a blessing  
Without you I start getting restless  
I'm tryna make an impression  
Allow me to show my intentions  
Baby your beauty's a blessing  
Without you I start getting restless  
I'm tryna make an impression  
Allow me to show my intentions
