Let Em' Know

A-Reece

Shout out to the bad bitch one time
Oh yeah, yeah [x4]

Girl you're more than just a fan, you ain't gotta let em' know
In my crib or with your friends, you ain't gotta let em' know
Introduce you to my gang, you ain't gotta let em' know
Get up off your Instagram, baby turn off of your phones
If you ride tonight [x3]
You're mine
Give me your time tonight
Your time tonight [x2]
You're mine

Never with the spaz and keep it low key
Thinking got no caption and I don't tweet
If they ask about it then I don't speak
Let them talk about for the whole week
Pull up in my city show you around the streets
Baby what you get is what you really see
Lighting up the way puff it on the cheek
I got what you want I got what you need

And every time I think of you my mind goes cool cool inside
And every now and then I think of you all day, yeah

Girl you're more than just a fan, you ain't gotta let em' know
In my crib or with your friends, you ain't gotta let em' know
Introduce you to my gang, you ain't gotta let em' know
Get up off your Instagram, baby turn off of your phones
If you ride tonight [x3]
You're mine
Give me your time tonight
Your time tonight [x2]
You're mine

You like all my songs I know and that's beacuse I see your ass in every show
You said you're fan and you like to be a cameo
I want more than that
Please allow the boy to take you home
Know you got a man I know you think I'm fucking every hoe
Lay back where it's time, even take you where it's very cold
Maybe at my spot, I got everything you're looking for
I got all the guaps, OG plug then pay me hella dough
Like it when you're around, I should let you know

And every time I think of you my mind goes cool cool inside
And every now and then I think of you all day, yeah

Girl you're more than just a fan, you ain't gotta let em' know
In my crib or with your friends, you ain't gotta let em' know
Introduce you to my gang, you ain't gotta let em' know
Get up off your Instagram, baby turn off of your phones
If you ride tonight [x3]
You're mine
Give me your time tonight
Your time tonight [x2]
You're mine

You ain't gotta let em' know [x4]
