I swear a lot of shit been happening
Back when you and I had to split
Now I'm where the action is
In this music industry biz
Mama happy, there's groceries inside of the fucking fridge
I think I'm big 'cause they scream and shout
Whenever they see the kid
I finally made it, I'm finally famous
I'm getting paid, they paying homage
I put smiles on they faces when I'm on stage
I'm proud to say this
You told me be patient, the time will come
Now I'm on the road city to city they showing love
I just wish that you was with me inside of this H1
I just wish that you was with me inside of this plane girl
I just wish that you was with me
When I was in Cape Town for the first time
Now that you mine re kena hape
