They don't really like us I already know  
Look how they be quite when we in the room  
I don't even fight yeah [?]  
I ain't never lie a never ba re tshosa  
Not giving a fuck, not anymore [x4]

Circle hella small I call it Cheerio  
All my niggas loyal never break the code  
Did it on my own and I don't owe a soul  
Told myself that I am never going broke  
The plan was never to come here make friends with a bunch of snitches  
The plan was never to share ideas let a man on the vision  
The plan was never to make small talk only talk if it's business  
[?] makes his niggas pillow talk with the wrong bitches

But I just don't give a fuck  
I just don't a give a fuck  
Let it be known  
You can not chill with us  
You can not chill with us  
Let it be known  
We get the bigger cut  
We get the bigger cut  
Let it be known  
I run the city son

I will never fall I got em' on bungee rope  
Showed my face advance I make em' close a store  
I'm a man of action I wake up and do it  
Ever since Ambitiouz I am never home  
And why's we acting like we don't see these OG's think they got next up  
And why's we acting like we don't see these OG's wishing they were young as us  
And why's you acting like you don't see the industry throwing shade at us  
They put on a big fat smile  
Take it off right after

But I just don't give a fuck  
I just don't a give a fuck  
Let it be known  
You can not chill with us  
You can not chill with us  
Let it be known  
We get the bigger cut
