A-Reece

Please, leave all my clothes, oh, when you leave  
I know I got drip, pardon my steez  
Girl, just look at what you started with me  
Fuck you good I'm like a god in the sheets

Don't be afraid I'm like a dog on a leash  
So well behaved girl I won't bite if you don't want me to  
Spent so much time apart you took a part of me  
I'll be so delighted if you follow me  
I know you got doubts, I don't break promises  
You came with a friend, tell me what vibe is this

On the coast, getting blown  
She with me, let them other bitches know  
They just mad, she with me, everywhere I fucking go, hah

I know for a fact ain't nobody replacing me  
Breaking her off, I ate it so good  
She ended up fixing a plate for me  
Ain't gotta force her to stay with me

Nothing a hater could say to me  
She telling me "if I'm your ride or die  
I'm taking that dick to the grave with me"

I fall in love when she talking that way  
I'm in her throat, just making her taste

She got on top, my hands on her waist  
I'm going deep, she making a face  
I'm like a dog on a leash, in the bed I turn into a beast  
I'm whatever you want me to be  
Them niggas really just wanna be me, reece
