

SOMETHING TO FIGHT FOR

A-Reece

Something to die for

Just trying to find something to fight for
Something to die for
Sacrifice my life for
Just trying to find something to fight for
Something to cry for
Sacrifice my time for

I'm just trying to find something to fight for
Something to die for
Sacrifice my life for
I'm Just trying to find something to cry for
Something to fight for
Sacrifice my time for

I'm just trying to find something to fight for
Something to die for
Sacrifice my life for
I'm Just trying to find something to cry for
Something to fight for
Sacrifice my time for

Swallow my pride
Follow my roots
Uncover the lies
Follow the truth
Still carry the name
But the memories are erased
The blood is the same
But we come from a different place, yeah
The future depends on the genesis
Family heritage
Distant relatives
Feet in the sand
Sun in my face
Blood on my hands
Washing away
Had murder my ego to make a change
I have nothing to lose but more to gain
God's messenger, guiding the human race
Show you the way
He put me here to remain
It's never too late
Living life under the microscope
Don't do what I do
Do what I say
Listen to the wisdom embedded into the microphone
Fame is a hard drug to micro dose
Take it from me cause I would know
They put a price on integrity
Walk without a soul
On the road to your destiny
It could take a toll
You look around and nobody's telling you take it slow

Swallow your pride

Follow your roots
Uncover the lies
Follow the truth
I know you relate
But your mind is trapped in a cage
You bearing the pain

Ngifuna ukubonga abasekhaya
Ngoba ubuhlungu abupheli
Lana ngaphandle abakuzweli
Noma benamathele angibathembi

Ngifuna ukubonga abasekhaya
