

Starlights

A-Reece

Starlights, all I see is starlights
Highlights, let me show you my life
It's a beautiful life
But you can't live it twice
It's a beautiful life
But you can't live it twice
Like hiroshima I am blown, never on my phone
I just let it ring ring ring

Everything i do I put my heart in it
So if I don't fuck with it, then I don't fuck with it
No time for debates no time for arguments
Either it's astonishing or it's some awful shit
Everywhere I go, I bring my niggas with
Yeah I wish a nigga would, yeah we gon start some shit
No time is too late, we on some other shit
No time is too late, we on some other shit
Facetime your bitch, she thot, lil thick
We not fucking, but she want it
I just might, just right now I'm lit
Look inside, my cup is pink
What you think

Starlights, all I see is starlights
Highlights, let me show you my life
It's a beautiful life
But you can't live it twice
It's a beautiful life
But you can't live it twice
Like hiroshima I am blown, never on my phone
I just let it ring ring ring
Like hiroshima I am blown, never on my phone
I just let it ring ring ring

If you're looking for me look up in the sky
Look up way way high
I'ma stay strong going up, until the day I die
Coz I'm destined for greatness
Oh there ain't no time for favours
Some stars are made but some stars are born
Ain't nothing sophisticated
It's my birth right to win yeah
Each early morning I pray that I keep it going
Yeah coz starlight shines in me
These thoughts would hit me when I'm low
When I'm all alone
I just wanna win, win, win
And the feeling is so strong, that's how I know I can't be wrong
Like bling around your ring ring ring

Starlights, all I see is starlights
Highlights, let me show you my life
It's a beautiful life
But you can't live it twice
It's a beautiful life
But you can't live it twice
Like hiroshima I am blown, never on my phone

I just let it ring ring ring
Like hiroshima I am blown, never on my phone
I just let it ring ring ring
