

Uber

A-Reece

If I ain't hit it then you are still a virgin
I admit I know I gotta earn it
Busting from me from the front and where you've been before we can skip to foreplay
Tlisa di chomi we can all play
I know each other like for four days
1, 2, 3, 4 days yeah good dick will make you all stay
Oh Morena Jeso what a time
You should pull up all the time
When I call your phone trying to make a plan put your man on the other line
He ain't fucking right he be trying
Being honest I ain't never lie
Im being honest I ain't never lie
Mind on the pussy pussy on the mind

How about I take advantage
How about you let me eat
How about we make it happen
How about you do a split
How about you let me have it
How about you do your thing
We should turn this to a habit
Man I think that I'm addicted

Thinking about it mammy you should see it though
You ain't gotta worry it's just me and you
I know you down for another round
I know you down for another round
How about I call a Uber
How about I call a Uber
How about I call a Uber
I don't mind let me get you here

If I don't hit it it don't got a purpose
I put the work in like I offer service
Girl I got it waiting women up for me to hide but need inside it all day

Fuck you standing with your arms raised
Make you lift your leg to the boy waist getting really close I feel your heart raise
Oh Morena Jeso what a time
Should've have been pulling up all the time
Check your phone go to Instagram barely see your picture on your timeline
Getting Uber ride anytime
I'm being honest I ain't never lie
I'm being honest I ain't never lie
Mind on the pussy pussy on the mind
How about I do the damage
How about you do the kissing
Heard you never with the fashion
Either lingerie or naked
I could fuck you with an angle
I could give your ass a baby
It ain't nothing I can handle
We can do this on a daily

How about I take advantage

How about you let me eat
How about we make it happen
How about you do a split
How about you let me have it
How about you do your thing
We should turn this to a habit
Man I think that I'm addicted

Thinking about it mammy you should see it though
You ain't gotta worry it's just me and you
I know you down for another round
I know you down for another round
How about I call a Uber
How about I call a Uber
How about I call a Uber
I don't mind let me get you here
