

Until I RIP

A-Reece

I'm just glad that both my brother's is back on they're feet
I rep TWC till a nigga R.I.P
Always know the difference between what you want and need
Took care of the music, now it's taking care of me
I'm back where the money be
Losing sleep, chasing the dream
Fuck a enemy
No surrender no retreat
I'm back where the money be
Losing sleep, chasing the dream
Fuck a enemy
No surrender no retreat
Yeah yeah

Five a.m did like six shows, I just got home, I ain't rest yet
Blowing smoke on the microphone
Make you wonder what I'm bout to say next
Insync with the metronome I ain't even gotta do a mic test
Since, since I've been well known for the money flows
Nigga cut Cheque
Two birds east side of a nigga
Sleeping laying up in my nest
Pulled up and got high like we ain't see the sign
Say no smoking here
Real niggas stand up guy
But I'm never really with the joking here

I'm a heavyweight I ain't got no fear
Dirty game, they don't play fair, either you adjust
Or you out there
We putting in what they letting out
But without a option even ideas
Lil sheep I'm a big bad but I'm baby boy where the bio is
Vans down from the toes up like a pro skater [?]

I'm just glad that both my brother's is back on they're feet
I rep TWC till a nigga R.I.P
Always know the difference between what you want and need
Took care of the music, now it's taking care of me
I'm back where the money be
Losing sleep, chasing the dream
Fuck a enemy
No surrender no retreat
I'm back where the money be
Losing sleep, chasing the dream
Fuck a enemy
No surrender no retreat
Yeah yeah

Yeah
Took care of my family, taking care of the music
Taking care of business took care of my music
Gave my fam the world nigga they the truest
I wanna see my people rock up in the newest
You pull up at my house lil boy you will be slaughtered
She's naked at the crib and that's somebody's daughter
Flexing with the watches that her daddy bought her

Phones on flight mode and she couldn't be bothered
What you mean, what's better than family
What you mean we not really [?]
What you mean we got that [?] on that [?]
Don't gas me up coz I'll be back

I'm just glad that both my brother's is back on they're feet
I rep TWC till a nigga R.I.P
Always know the difference between what you want and need
Took care of the music, now it's taking care of me
I'm back where the money be
Losing sleep, chasing the dream
Fuck a enemy
No surrender no retreat
I'm back where the money be
Losing sleep, chasing the dream
Fuck a enemy
No surrender no retreat
