

We Both Know Better

A-Reece

Yeah

I hate thinking bout it

I hate thinking bout it

I hate thinking bout it

I hate thinking bout it

Yeah yeah

Yeah I hate

Yeah I hate

I hate thinking bout what happened, you and I know better

They say good things never last but you and I know better

Price tag on your heart oh where do I start

I never thought you had standards, I just think we let this happen

Not saying that I want you back but girl I still love you

Got me a queen, got you a man but girl I'd still fuck you

Ok maybe I'm over exaggerating a little bit disrespectful

My innocence been astray lately

From love shown love given down to love wasted

Stories of you about them nights some of us call dangerous

Led me to take more advantage of what the fame came with

Coz in reality ain't no way you was just waiting

Not gonna sit here and pretend like my past stainless

Not gonna sit here and pretend like knowing that it's painless

I'm trynna change I'm a man of changes

Having to text you even makes me anxious

Part of my work is going different places

No smile, straight faces to the strange faces

Nobody acting like themselves these are strange faces

Trynna go through all these life stages

Praying whatever happens I just hope you don't hate me

Yeah I hate

I hate thinking bout what happened, you and I know better

They say good things never last but you and I know better

Price tag on your heart oh where do I start

I never thought you had standards, I just think we let this happen

Yeah I hate

I hate thinking bout what happened, you and I know better

They say good things never last but you and I know better

Price tag on your heart oh where do I start

I never thought you had standards, I just think we let this happen

Yeah yeah yeah yeah yeah yeah

I know I shouldn't call you but I probably do

I know I shouldn't call you but I probably do

All the women down in JHB up to CPT

(Fuck it up)

Not forgetting PTA and PLK

(Shut it down)

Pretty women in the East fucking with Reece

(Fuck it up)

Not forgetting DBN I'll be there again
