

Where You At

A-Reece

Speaking of the city I put it on my back
All my niggas winning dawg just check the stats
Took a couple losses but we made it back
Do my niggas favors with no strings attached
It's not where you been dawg it's where you at
You gotta watch your friends those the ones who mad
Blowing dope foot up on the gas
Oh so special with it I feel chosen
Had a plan and mapped it out lets get this shit in motion
Cutthroat money I get that money and blow it
I never had shit and its showing
Weight up on my shoulder never folding
This chip on my shoulder that I'm holding
They wonder why a young nigga focused
They wonder why a young nigga on it
I do this shit for Yonn he on that level 4
I do this for my niggas cause that's all I know
I do this for my daughter swear I love her soul
I do this for the city put the beach on
They say they run the city dawg but we know
I do this shit for shelly and her 3 kids
I do this shit with honors never compromising morals
Got people depending on me pray I make it big
This weight up on my shoulder but I do this shit
I do this shit

International underground kings
Niggas like me took the harder route
Who the fuck you calling out
We can tell that you just started out
You treat the game like its yo mama house
Since every rapper is the goat I treat the game like it's a slaughterhouse
Anybody can get it like its on the house
Yeah im the one they scared to talk about
I'm tryna count M's niggas tryna count me out
I was taught to go get it by any means
I don't even think that you niggas know what it means
I don't have to be a killer to tell you I'm from the streets
Some niggas take led I chose taking the lead
I was taught to fly without a set of wings
Young black nigga but the cuisine is Japanese
Cause it ain't bout where you been but where you at
Either you bounce backwards or bounce back nigga
Yeah, speaking of the city I put it on the map
All my niggas winning you can check the stats
Took a couple losses but we made it back
Do my niggas favors with no strings attached
I do this shit for them so they ain't gotta ask
Watch out for your friends those the ones who mad
Smoking dope just blew 100 grams
