

# Firefly In My Window

A Silent Film

Firefly at my window  
Keep my body warm, in the dead of night  
And everywhere that you go everyone is touched  
By your glowing light

And who am I to you  
Who am I to anyone at all

And if I follow you  
Will you light my way  
Home

A firefly

How I'll never be here  
Watching the horizon for a hurricane

Please don't leave the lights on  
I do not want to miss my friend  
The firefly, again

Who am I to you  
Who am I to anyone, at all

And if I follow you  
Will you light my way  
Home

A firefly  
Come with my light

And she blew away, far away  
Oh she blew away, far away  
Always flying streight, far away

Into the sky  
Miss firefly

Come back to my window  
Wake me up at any hour you like  
We'll go to the corn field  
We'll watch the other firefly

A firefly  
Come with my light

And she blew away, far away  
Oh she blew away, far away  
Always flying streight, far away  
Into the sky  
Miss firefly
