

The Rainbow's End

A Taste Of Honey

I know a place that's not too far
Can't catch a plane
Or drive a car
It's found so deep within your heart

Though you don't know me very well
Just takes a little time to tell
Just how much love we stand to gain
Come with me
To the rainbow's end

There's so much peace of mind to feel
No other place has such appeal
Just close your eyes to make it real

Though you don't know me very well
Just takes a little time to tell
Just how much love we stand to gain
Come with me
To the rainbow's end
Hey, ooh...
