

# Have a Little Faith in Me

A\*teens

[Marie]

Lonely days lonely nights  
Without you by my side  
Memories and sad songs  
Making me feel so blue

[Sara]

Now I know yeah I realize  
I see the world with different eyes  
Give me one more chance  
And I'll make it all up to you

[All]

So Have a little faith in me  
Put a little trust in me  
Every little thing will be alright  
Every little thing will be just fine  
So Have a little faith in me  
Tonight

[Dhani]

Sitting here by the telephone  
I try to call but you're not home  
I'm drifting away in echoes of yesterday

So have a little faith in me  
Put a little trust in me  
Every little thing will be alright  
Every little thing will be just fine  
Have a little faith in me  
And I will hold you in my arms tonight

Have a little faith (yeah yeah yeah)  
Put a little trust

So have a little faith in me  
Put a little trust in me  
Every little thing will be alright  
Every little thing will be just fine  
Have a little faith in me  
And I will hold you in my arms tonight

Have a little faith (yeah yeah yeah)  
And I will hold you in my arms tonight  
Every little thing will be alright  
Every little thing will just fine  
Have a little faith in me  
And I will hold you in my arms tonight

Have a little faith in me  
Tonight
