

# Blaze Of Somethin'

## A Thousand Horses

When my road runs out  
You're gonna find me with my left foot down  
Rearview mirror ripped off the windshield  
Regrets nowhere near  
When my blood runs cold  
And it don't matter if I'm young or old  
'Cause when it's all said and done  
And I'm long gone with the sun  
They're gonna know that I was here

Gonna bang that drum, gonna light it up  
Every bullet in the gun  
Shot across the midnight sky  
Ain't leavin' one behind  
Love even if it hurts  
Even if I crash and burn  
All the way down to the embers  
Leave them something to remember  
Might be glory, might be flames  
When the good Lord calls my name  
Stand my ground, run from nothin'  
I'm going out in a blaze of somethin'

I'm gonna pour on strong  
Like there's no tomorrow comin' on  
Enjoy the good times while you've got 'em  
'Cause who knows how long you've got 'em  
Raise your glass and sing along

Gonna bang that drum, gonna light it up  
Every bullet in the gun  
Shot across the midnight sky  
Ain't leavin' one behind  
Love even if it hurts  
Even if I crash and burn  
All the way down to the embers  
Leave them something to remember  
Might be glory, might be flames  
When the good Lord calls my name  
Stand my ground, run from nothin'  
I'm going out in a blaze of somethin'

Yeah we all may be shooting stars  
Here today, and gone tomorrow  
But I'll just keep shinin' while I'm here

Gonna bang that drum, gonna light it up  
Every bullet in the gun  
Shot across the midnight sky  
Ain't leavin' one behind  
Love even if it hurts  
Even if I crash and burn  
All the way down to the embers  
Leave them something to remember  
Might be glory, might be flames  
When the good Lord calls my name  
Stand my ground, run from nothin'

I'm going out in a blaze of somethin

In a blaze of somethin'

Yeah, I'm goin' out, and I'm goin' out

Yeah, in a blaze of somethin'

Yeah, I'm goin' out, I'm goin' out
