

Don't Stop

A Thousand Horses

Oh what a pretty little mess you're making
I dare you do it again
Yeah do that thing you do that kills me
Don't hurt me baby heal me again and again

Don't stop breaking my heart
Baby don't stop messing me up
So come on over lie to me
Drink my wine smoke my weed
Even when I'm falling all apart
Just don't stop breaking my heart

Oh you know how to cause some trouble
You know how to light things up
Yeah baby give me just a little
To wind me up and watch me come undone

Just don't stop breaking my heart
Baby don't stop messing me up
Come on over lie to me
Drink my wine smoke my weed
Even when I'm falling all apart
Just don't stop breaking my heart

I make it too easy
Heart on my sleeve baby
I take you back every time you leave

Just don't stop breaking my heart
Don't stop messing me up
So come on over lie to me
Drink my wine smoke my weed
Even when I'm falling all apart

Just don't stop breaking my heart
Baby don't stop messing me up
So come on over lie to me
Drink my wine smoke my weed
Even when I'm falling all apart
Just don't stop breaking my heart
Baby don't stop breaking my heart
Baby don't stop breaking my heart
