

Bleed

A-Wall

Fuck you, pick me, pick him
I get it, look that's your friend
But bitch do not disturb my zen
'Cause god forbid I lay my hand
I got a new demon
Got a new reason
Got a new a bag to spend
And everybody wanna play pretend
Everybody wanna bite my hand
Man, fuck 'em

Yeah I know you see it
How they do me wrong
It's my biggest secret
That I can't say no

So long, so far away (so long)
So long, so far (so long, bitch)
So long, so far away (so long)
So long, so far

Yeah, took a knife to my back
And there's feelings attached
But they want me to act like it's okay
When they run up my tab
Got their hands in my bag
But I'm still getting cash
So it's okay
When I run out and crash
And sit they there and laugh
And I finally snap
Is it okay?
Pull the trigger and blast
When I bury my past
And they're breathing their last
Now it's okay

Yeah I know you see it (You see that shit?)
How they do me wrong (Shit's crazy)
It's my biggest secret
That I can't say no

So long, so far away
So long, so far (so long, bitch)
So long, so far away (so long)
So long, so far

Fuck you, pick me, pick him
I get it, look that's your friend
But bitch do not disturb my zen
'Cause god forbid I lay my hand
I got a new demon
Got a new reason
Got a new a bag to spend
And everybody wanna play pretend
Everybody wanna bite my hand
Man, fuck 'em
