

# Red & Blue

A-Wall

Castles in the sky  
I need a better view  
I just might  
I just might dive into something new  
Take you for a ride  
You like red or blue?  
I'm just really  
I'm just really that much into you  
Show you how I shine (shine shine shine shine)  
Got me teeth on the grind  
Stuck inside my mind (mind mind mind mind)  
Will I make it out alive?  
I just switched the style up  
Just to show you my  
Show you my shine  
This is my reminder  
There ain't nothing really like my life  
My life

Got the helmet on (helmet on)  
Way too long (way too long)  
I been gone  
Way too long  
Lost my drive yeah  
Lost my mind yeah  
Cross the line yeah  
Often times you can see behind my eyes yeah  
But I can see them  
Late nights feel incredible yeah  
Moon light at the festival yeah  
Real life unforgettable  
But it's hazy now  
Don't save me now
