

# I'm Gonna Work It Out

A Wilhelm Scream

Life spit out a heart ungrateful  
A measly, miserable fuck  
I left that grudge hooked up at the hospital  
'Cause I won't let it die  
And that meant war for you and I

Unlisted in the middle  
In the middle of a life  
Bet you could walk alone like a house on fire  
Listen to your heart, fuck all the liars

I don't know how you got this heartache  
Been off the grid on a bone ride with Kenny and them  
While you were fighting them demons in your head  
When it came to you, I said

I'm gonna work it out, I'm gonna work it out  
I'm gonna work it out, no matter what  
No matter what

And I just can't wait to see you again  
With the same wide grin, like you never left  
This disaster ain't that bad in the end

I'm gonna work it out, I'm gonna work it out  
I'm gonna work it out, no matter what  
I'm gonna work it out, I'm gonna work it out  
I'm gonna work it out, no matter what  
No matter what
