Full Pelt

A

And I get frightened
When the phone rings
I leave the blinds closed
I got ten locks on my door
And I'm not waiting
For the weekends
And I'm not waking
For the mornings anymore

My life's a constant upward hill now
My life's a constant downward thrill

Another day
Another ordinary day
Another day
Another ordinary day

And it's on and on forever on
But no one comes around
And you're under where without a care
But no one comes around

And all that money
For your cigarettes
A conversation becomes
Easy when you smoke
I'll kick 'em alright

It's a warning don't forget
A situation is so easy
When you're broke

My life's a constant upward hill now
My life's a constant downward thrill

Another day
Another ordinary day
Another day
Another ordinary day

And it's on and on forever on
But no one comes around
And your under where without a care
But no one comes around

Up above the stairs
That go nowhere
And no one comes around
And you're under where without a care

ah

come on

together

come on come on

come out
