

Get Out More

A

She takes another hit
And left to deal with it
No use denying and she won't listen, won't listen
He wants to be alone
But he's in every home, he's gotta settle down
She used to give a shit and now she's eating it
And when her clothes don't fit, she won't listen, won't listen
He pulls her by her hair, he says it's cause he cares
They'll never settle down, they'll never settle down

She's looking for an easy way to get out
You know she's gotta get out more
She's looking for sugar in the snow
We keep on, keep on watching

He takes another shot
It turns him on a lot
She's everything he's not, he won't listen, won't listen
She's gonna sort it out, he's gonna stick around
They're gonna settle down, they're gonna settle down

She's looking for an easy way to get out
You know she's gotta get out more
She's looking for sugar in the snow
She keeps on, keeps on

She's looking for an easy way to get out
You know she's gotta get out more
She's looking for sugar in the snow
We keep on, keep on

She's looking for an easy way to get out
You know she's gotta get out more
She's looking for sugar in the snow
She keeps on, keeps on

She's looking for an easy way to get out
You know she's gotta get out more
She's looking for sugar in the snow
We keep on, keep on watching
