

Tomorrow

A1

You used to say that everyday.
We will always be this way.
Flying Angels lifting high to reach the sun were I belong.
Girl you know you are the one.
Above the clouds I see you cry.

You know that when you smile.
You stop the rain and we will be together. Once again.

Although I'm gone, remember me.
Please be strong I'll never leave.
Just hold on, to the memories.
Coz while I'll here, all I'm thinking about is tomorrow.

I'll always know the love you've shown.
Means I'll never be alone
There'll be times you wonder why.

But seeing you with someone new.
Used to make me feel so blue.
But know I'm with you, all the time.

You know that when you smile.
You stop the rain and we will be together. Once again.

Although I'm gone, remember me.
Please be strong I'll never leave.
Just hold on, to the memories.
Coz while I'll here, all I'm thinking about is tomorrow.

From the moment that I looked into your eyes.
All of my life I thought I'll be there.
By your side, I wish I'll took the time to find the words to say.

You know when you stop the rain.
And we will be together once again.

Coz while I'm here, all I'm thinking about is tomorrow.
