

Forever Love

Aaradhna

It's a shame
That you can't love me much as I do
Ohhh
Was a shame
That you can't love me much as I do
Love you

Even though you oh
Love you forever
This is forever
Even though you oh
Love you forever
This is forever
This forever love
This forever love
This forever love
I sure do love you

When I leave this world behind
I will be dying a fool
Not even that can stop my love
From chasing you

And this does hurt like hell
To know you don't feel the same

Even tho you oh
Love you forever
This is forever
Even tho you oh
Love you forever
This is forever
This forever love
Thus forever love
This forever love
I sure do love you

When the sun drop
When the clouds stops
At the end
I still be loving you
When the dark fall
When the moon's gone
In the end
I still be loving you
