

Pyro

Aaron Carter

I got my mind right
You walk a fine line
I say I'm just fine
But you gon' say I need more time
We swinging low blows
I skip the high road
Life as a pyro
I'mma watch it all burn down

I'mma watch it all burn down down
Down down down down down

All the fire trucks and the ambulance
They can see the smoke when I light it up
We can't feel the flames till its hot enough
Pyro

All the fire trucks and the ambulance
They can see the smoke when I light it up
We can't feel the flames till its hot enough
Pyro

Don't want to let go
She know what I know
Gaslight and explode
But then she put the fire out
I'm stuck in this place
So hot the glass breaks
How much can we take?
Before we watch it all burn down

I'mma watch it all burn down down
Down down down down down

All the fire trucks and the ambulance
They can see the smoke when I light it up
We can't feel the flames till its hot enough
Pyro

All the fire trucks and the ambulance
They can see the smoke when I light it up
We can't feel the flames till its hot enough
Pyro
