

# Where Do We Begin

Aaron Carter

Summer's almost over now  
And I'm gonna miss your smile  
You're beautiful just like a rose  
Our love could be the greatest story ever told

It starts with a hug, it starts with a friend  
It starts with someone you can call  
It starts with a kiss, it starts with the love  
Which leads to someone you can trust  
It starts with the day, which leads to a lifetime in your love

Where do we begin, if I close my eyes?  
And I count to ten, running disappear  
And be gone like the wind, is this happening?  
Come on let me in, summer never ends  
Cause this is where we begin, this is where we begin

Thinking we can take the world  
Cause it took my heart and that's for sure  
I clear the wind to never come  
Cause this could be the greatest summer of our lives

It starts with a hug, it starts with a friend  
It starts with someone you can call  
It starts with a kiss, it starts with the love  
Which leads to someone you can trust  
It starts with the day, which leads to a lifetime in your love

Where do we begin, if I close my eyes?  
And I count to ten, running disappear  
And be gone like the wind, is this happening?  
Come on let me in, summer never ends  
Cause this is where we begin, this is where we begin

My heart will wait for you  
Hope the love wait too  
In my heart I'll wait for you  
Hope the love sees through

Where do we begin, if I close my eyes?  
And I count to ten, running disappear  
And be gone like the wind, is this happening?  
Come on let me in, summer never ends  
Cause this is where we begin, this is where we begin  
This is where we begin, this is where we begin
