

# COOKE

Aaron Cole

Yeah

I had to cook, I ain't wanna end up like Lenny Cooke  
I am a vet, I give a TEC to any rook  
I can't get comfortable even though that I really could  
And we up so it's good like, oh

I had to cook, ain't wanna end up like Lenny Cooke  
I am a vet, I give a TEC to any rook  
I can't get comfortable even though that I really should  
And we up so it's good like, whoa

This is what happen when talent gon' work hard  
This is what happens when you been on top of the game  
But you still gotta do more  
People gon' hate on the boy  
They been doin' it, I was rappin' my first bar  
(Then what?)  
But Kelly told me that I'm worth more  
So I'm puttin' my foot on gas  
All of this authored, I'm Ashe  
You would think that I play for Boston the way that I'm reachin' the mass  
(On God)  
All of these dudes wanna shine  
But nobody wantin' to grind  
They lookin' at me, wonder, "How is he hot as July?"  
My will not like other guys and I got a God  
Who's favor different, it's odd  
I just be throwin' the lobs  
And if you not wit' me, then you can just skate on Rashad  
'Cause I gotta get it for moms right  
I gotta get it for pops  
He told me, "Son you gonna pop"  
So I had to reach all the dreams  
Ain't even get a degree

I had to cook, I ain't wanna end up like Lenny Cooke  
I am a vet, I give a TEC to any rook  
I can't get comfortable even though that I really could  
And we up so it's good like, oh

I had to cook, ain't wanna end up like Lenny Cooke  
I am a vet, I give a TEC to any rook  
I can't get comfortable even though that I really should  
And we up so it's good like, whoa

Yeah, I'm not even where I'm supposed to be  
All of this pain been the cost of my receipts  
You think I'm winnin' just by lookin' at my streak  
Came from the streets  
I'm in love with the game  
Been at it since a youngin'

I'm back up while y'all frontin'  
We got it off of nothing

They worried 'bout the money  
But I know the hunnids comin'

My future lookin' stunning  
I work instead of stuntin'

I had to cook, I ain't wanna end up like Lenny Cooke  
I am a vet, I give a TEC to any rook  
I can't get comfortable even though that I really could  
And we up so it's good like, oh
